- Conceptualized new applications for company's existing communications technology
- Graphical User Interface Design*
- Designed information flow in new rich feature applications
- Icons, graphics, and application collateral created in Photoshop and Illustrator
- Full visual application mockup creation in Illustrator
- WPF Programming & Project Management*
- Designed and coded XAML markup for several internet enabled rich feature applications using Windows Presentation Foundation

2001-2006

Gallery Coordinator/Graphic Designer *Around the Coyote, Inc.*
Graphic Design

- Designed all organization's collateral, website, and marketing materials including t-shirts, posters, postcards, advertisements, newspaper inserts, maps, brochures, multi-page catalogs, envelopes, letterhead, business cards and signage
- Gallery*
- Started 2400-square foot gallery space for organization, showing 10-12 curated exhibitions of original art per year
- Oversaw daily operation of gallery, including presentation and sales of artwork
- Mediated between curators, artists, clients, and press; recruited new artists
- Wrote and disseminated monthly press releases, invitations, calls-for entry, newsletters, and grant applications
- Website & Database*
- Consolidated multiple separate flat databases into one dynamic database
- Managed and expanded www.aroundthecoyote.org online membership, calendar, education and gallery branches
- Designed and maintained front- and back-end for the high-traffic, content-rich website

2000-2001

Junior Graphic Designer *MetroDesign*

- Designed print materials (brochures, annual reports, posters, banners, and collateral) for a wide range of clients including Fleet Bank, Sprint, and the City of Boston
- Collaborated with video producers and programmers in the creation of several educational multimedia projects for CD-ROM
- Photographed architecture and tourism-related sites for the City of Boston

1999-2000

Gallery Assistant *Lacuna Gallery*

- Designed and prepared advertisements for print in magazines and newspapers
- Digitized and color-corrected artwork for gallery archive and advertisements
- Organized and maintained gallery database and mailings
- Sold and delivered artwork
- Planned and produced gallery openings, including food and live music

1998-1999

Lab Assistant *Human Behavioral Pharmacology Lab*

- Researched interactions between hormones, alcohol, and benzodiazepines
- Operated and maintained infrared eye-scanner and data-collection computers
- Programmed scripts to streamline data sorting process
- Maintained test-subject databases
